Yes, it provides the surveyed location of most of the claims that are affected by the proposed de-watering pipeline as well as many of the adjacent claims. We will adjust the Toeroek maps accordingly.

Thank you,

Lindsay Garner | Project Manager

John,

My objective in having you involved with this file exchange is to ensure that the GIS files with the Surveyor's shape files are consistently mapped / applied among the EPA organization. The Surveyor's shape file was provided to John L. for mapping for our use, and it will be provided to the State and BLM once we have returned it to the SJC surveyor. We need this image to help determine where our operations are relative to property ownership.

ENF's contractor Toerek needs to use this information to assist with ENF duties.

Let me know if there are questions.

Steve

The zip file was removed from EPA system. It needs to be "piz" and I rename it. For practical matters, please send the GIS file to Marty and John Wieber. They need to get it Toereck also.

The PDF image will work for me.

Thanks

Hi John,

Can you please provide everyone in this email chain your ArcGIS shape file and the PDF you provided me of the mining claims in the vicinity of Gladstone to Red and Bonita.

Thanks,

Elliott
